4000 Essential English Words - Volume 1, Unit 4: The Dog ' s Bell John ' s dog was a bad dog. He bit people frequently. John had great concern about this. It was not an appropriate way for a dog to behave. His friends in the village always expected the dog to bite them. The news about John ' s dog spread through the village.

Other vocabulary books list difficult, esoteric words that readers quickly forget or feel self-conscious about using. Here there is a bounty of choice words, between the common and the esoteric, that will flow forth, once learned. Brief Description: English offers perhaps the richest vocabulary of all languages, in part because its words are culled from so many languages. It is a shame that we do not tap this rich source more often in our daily conversation to express ourselves more clearly and precisely. Many a vocabulary book lists esoteric words we quickly forget or feel self-conscious using. However, there is a bounty of choice words between the common and the esoteric that often seem be just on the tip of our tongue. Vocabulary 4000 brings these words to the fore.All the words you need for success in business, school, and life!Features: * Word Analysis section* Idiom and Usage section* 200 Prefixes, Roots, and Suffixes* Concise, practical definitions* Great for the SAT, GRE and other entrance exams.

First published in 2010. Routledge is an imprint of Taylor & Francis, an informa company.

The verbal section of the GRE is essentially a vocabulary test. With a few exceptions, if you know the word, you will probably be able to answer the question correctly. Thus, it is crucial that you improve your vocabulary. Even if you have a strong vocabulary, you will still encounter unfamiliar words on the GRE. Many students write off questions, which contain words, they don't recognize. This is a mistake. This book introduces numerous techniques that decode unfamiliar words and prod your memory of words you only half-remember. With these techniques, you will often be able to squeeze out enough meaning from an unfamiliar word to answer a question correctly. Nevertheless, don't rely on just these techniques—you must study word lists. Obviously, you cannot attempt to memorize the dictionary, and you don't need to. The GRE tests a surprisingly limited number of words, and this book has 4000 prime candidates. Granted, memorizing a list of words is rather dry, but it is probably the most effective way of improving your performance on the verbal section. All the words you need for success on the GRE! Features: * 4000 Words Defined * Word Analysis section * 200 Prefixes, Roots, and Suffixes * Concise, practical definitions

Word Frequencies in Written and Spoken English is a landmark volume in the development of vocabulary frequency studies. Whereas previous books have in general given frequency information about the written language only, this book provides information on both speech and writing. It not only gives information about the language as a whole, but also about the differences between spoken and written English, and between different spoken and written varieties of the language. The frequencies are derived from a wide ranging and up-to-date corpus of English: the British National Corpus, which was compiled from over 4,000 written texts and spoken transcriptions representing the present day language in the UK. The book is based on a new version of the corpus (available from 2001) providing more accurate grammatical information, which is essential (for example) for distinguishing words like leaves (noun) and leaves (verb) with different meanings. The book begins with a general introduction, explaining why such information is important and highlighting interesting linguistic findings that emerge from the statistical analysis of the British National Corpus vocabulary. It also contains twenty four 'interest boxes' which highlight and comment on different aspects of frequency - for example, the most common colour words in English in order of frequency, and a comparison of male words (e.g. man) and female words (e.g. woman) in terms of their frequency.

The first in Denes Agay ' s famous series of piano tutor books for children teaches the basics step-by-step through a progression of melodic pieces and studies. It introduces easy piano technique and music theory in an accessible and imaginative way, inspiring students to learn and practice. Included are attractive illustrations, colourful stickers and over 70 fun and engaging pieces.
