There was one
copywriter who made
millionaires from people
who read his book,
although they never
wrote an ad. Eugene
Schwartz wrote a classic
on copywriting that is

probably one of the most powerful, and profitable, books on copywriting and marketing ever written. That book has been kept available only as a rare hardback gift edition. Generations of copywriters haven't had access to this material. And the world would be a poorer place, except... Fortunately Schwartz was also prolific as a speaker.

So we are able to bring notes of his lectures and a review of his classic text to life again. Progress has been made, related in part to improvements and refinements in diagnostic classifications that are increasingly empirically determined and behaviorally based. Historically, however, research on the treatment of children and adolescents has lagged

behind research on the treatment of adults. The growing realization that early intervention can prevent serious psychological dysfunction in adulthood has stimulated much more interest and attention in recent years, and a number of innovative and efficacious treatment strategies have been

developed. But most of these are not widely known outside the contexts of the major research programs in which they originated and were tested.

Complete protocols have rarely been disseminated or replicated; descriptions are typically embedded in the "methods" sections of journal articles or briefly

volumes addressing a
