Financial markets are the places in which financial institutions and individuals interact to exchange financial instruments. A marketplace such as this combines all of the above-mentioned entities, such as banks, insurance firms, brokerage companies, and many more, as well as the individuals who make deposits, take loans, engage in financial trading.

[What is the difference between financial institutions ...](#)

Financial Institution: A financial institution is an institution whose primary source of profits is through financial asset transactions. A financial institution acts as an agent that provides financial services for its clients. Financial institutions generally fall under financial regulation from a government authority. Financial Institutions- act as mobilisers and depositories of saving and as the custodian of finance.
