Rebecca L. Spang, who revolutionized our understanding of the restaurant, has written a new history of money. It is also a new history of the French Revolution, with economics at its heart. In her telling, radicalization was driven by an ever-widening gap between political ideals—including " freedom of money " —and the harsh realities of daily life.

Eight years before the French Revolution, the paper mill at Vidalon-le-Haut was the setting for a bitter strike and successful lockout. This labor dispute, resulting from conflicts between master papermakers and skilled journeymen, ultimately benefitted the mill’s owners and administrators—the Montgolfier family. They converted the 1781 lockout into an opportunity to train a new kind of worker, a malleable employee, and to fashion a new sort of workplace, a theater of technological experiment. Papermaking in Eighteenth-Century France: Management, Labor, and Revolution at the Montgolfier Mill, 1761-1805, gives us history from the workshop up, offering the most comprehensive exploration available of the historical experience of papermaking. Leonard N. Rosenband explains how paper was made, depicting the tools, techniques, raw materials, and seasonable flows of the craft, and explores the many conflicts and compromises between masters and men. Rosenband provides a compelling account of how technological change affected the papermaking industry, transforming an elaborate, established system of production. The Montgolfier archives are a rich source of information, providing records of daily output and procedures, including complex rules ranging from the precise hours of meals and prayer to matters of propriety and personal sanitation. They also provide insight into the attitudes of the Montgolfier family and their workers—what they made of their trade, their labor, and one another. This case study of the Montgolfier mill, adding details about technological innovation and shopfloor relations during a time of social unrest, enriches the current debate about the nature and impact of capitalism in France during the years leading up to the French Revolution.

French Revolution - History

"Historians of the French Revolution used to take for granted what was also obvious to its contemporary observers—that the Revolution was caused by the radical ideas of the Enlightenment. Yet in recent decades scholars have argued that the Revolution was brought about by social forces, politics, economics, or culture—almost anything but abstract notions like liberty or equality. In Revolutionary Ideas, one of the world’s leading historians of the Enlightenment restores the Revolution’s intellectual history to its rightful central role. Drawing widely on primary sources, Jonathan Israel shows how the Revolution was set in motion by radical eighteenth-century doctrines, how these ideas divided revolutionary leaders into vehemently opposed ideological blocs, and how these clashes drove the turning points of the Revolution. Revolutionary Ideas demonstrates that the Revolution was really three different revolutions vying for supremacy—a conflict between constitutional monarchists such as Lafayettets who advocated moderate Enlightenment ideas; democratic republicans allied to Tom Paine who fought for Radical Enlightenment ideas; and authoritarian populists, such as Robespierre, who violently rejected key Enlightenment ideas and should ultimately be seen as Counter-Enlightenment figures. The book tells how the fierce rivalry between these groups shaped the course of the Revolution, from the Declaration of Rights, through liberal monarchism and democratic republicanism, to the Terror and the Post-Thermidor reaction. In this compelling account, the French Revolution stands once again as a culmination of the emancipatory and democratic ideals of the Enlightenment. That it ended in the Terror represented a betrayal of those ideas—not their fulfillment."--book jacket.

"Filled with critical insights, Brown ’ s revisionist study utilizes an impressive array of archival sources, some only recently cataloged, to support his thesis that the French Revolution survived until 1802 and the Consulate regime.... This volume should be a priority for all historians and serious students interested in modern French history. Summing Up: Essential."— Choice "What Brown has done is to put all historians of the French Revolution in his debt by the thoroughness with which he explores an important aspect of the complex and interrelated problems posed by any attempt to create a new social and moral order based on principles that could prove to be self-contradictory and were neither understood nor welcomed by a substantial proportion of the population."— English Historical Review "This is one of the most important pieces of scholarship on the French Revolution since the 1989 bicentennial."—David Bell, Johns Hopkins University For two centuries, the early years of the French Revolution have inspired countless democratic movements around the world. Yet little attention has been paid to the problems of violence, justice, and repression between the Reign of Terror and the dictatorship of Napoleon Bonaparte. In Ending the French Revolution, Howard Brown analyzes these years to reveal the true difficulty of founding a liberal democracy in the midst of continual warfare, repeated coups d ’ é tat, and endemic civil strife. By highlighting the role played by violence and fear in generating liberal politics, Brown speaks to the struggles facing democracy in our own age. The result is a fundamentally new understanding of the French Revolution ’ s disappointing outcome. Howard G. Brown, Professor of History at Binghamton University, State University of New York, is the author of War, Revolution, and the Bureaucratic State: Politics and Army Administration in France, 1791 – 1799 and coeditor of Taking Liberties: Problems of a New Order from the French Revolution to Napoleon. Winner of the American Historical Association ’ s 2006 Leo Gershoy Award and the University of Virginia ’ s 2004 Walker Cowen Memorial Prize for an outstanding work of scholarship in eighteenth-century studies
