In James Maxwell's new novel Golden Age (2016. 443 pages), part of his Shifting Tides series of books, this comes very easy as he has just taken the ancient Mediterranean with its Greek and Egyptian cultures firked with the map and changed some names to protect the innocent. On the other hand this means that most of the elements of the world building will resonate as familiar as they are lifted out of history.

also find a place in turmoil, for the ruthless sun king, Solon, is dying. In order to gain entrance to heaven, Solon is building a tomb--a pyramid clad in gold--and has scoured his own empire for gold until there's no more to be found. Now Solon's gaze turns to Chloe's homeland, Phalesia, and its famous sacred ark, made of solid gold. The legends say it must never be opened, but Solon has no fear of foreigners' legends or even their armies. And he isn't afraid of the eldren, an ancient race of shape-shifters, long ago driven into the Wilds. For when he gets the gold, Solon knows he will live forever.

Chloe's quest to escape the Oracle's prophecy leads her to a magus with a secret: the eldren are not the only race to use magic in warfare. An ancient power is rediscovered, and a forgotten people will return. Meanwhile, cursed by his birth, Dion tries to forge a new life at sea, away from both the eldren and his former life in Xanthos, but the one thing he can't leave behind is his heritage. Two kings on opposite sides of the ocean prepare for war. The clash of civilizations has only just begun....

The epic conclusion to James Maxwell's gripping fantasy series. The world is facing a war to end all wars, a confrontation that will destroy everything Dion and Chloe hold dear. With Palemon's dragon army growing in number, time is running out... Dion is doing everything in his power to prepare his kingdom, but he knows it will not be enough. Although he needs Chloe's help, recent tragedy makes him terrified for her safety. Magic is dangerous. Only Palemon is too arrogant to see it. As chaos engulfs the land and Palemon risks civilization itself, Dion and Chloe must unite people of all nations to have any chance of survival.

When a desperate king threatens Dion and everything he loves, only dangerous magic can keep him safe. Dion, now king of Xanthos, is finally in command of the naval fleet he 's always dreamed of. But his hopes for peace are jeopardized when King Palemon, in dire need of ships to rescue his starving people from the frozen wastelands of the north, invades the Salesian city of Malakai. Too weak to confront Dion directly, Palemon turns to magic: mysterious copper chains from the lost civilization of Aleuthea, which have the potential to control dragons...and Dion. With the people he loves in danger, and his own freedom at risk, Dion 's only hope is Chloe and the power she struggles to tame.
