Identity Globalization Culture And Psychological Functioning

The issue of preserving cultural identity in the complex process of globalization is twofold. On the one hand there is the danger of cultural homogenization, which means that people could reach to one single form of culture, and on the other an acute cultural and psychological disintegration for both individuals and society.

GLOBALIZATION AND CULTURAL IDENTITY DILEMMAS

Globalization, if you don't remember, is the interaction of people, companies, and governments on an international level. This is achieved through international trade and technology. There are many perspectives on how identities are connected through globalization.

(PDF) IDENTITY AND GLOBALIZATION - ResearchGate

Abstract. Globalization—the increasing interconnectedness of societies, economies, and cultures—is a defining feature of contemporary social life. Paradoxically, it underlies both the dynamics of global crises (e.g., rising inequality, climate change) and the possibilities for ameliorating them. In this review, we introduce globalization as a multifaceted process and elaborate its psychological effects with respect to identity, culture, and collective action.

Social Identities in a Globalized World: Challenges and ...

Abstract. This article outlines the cultural and psychological effects of globalization. It looks at the impact of globalization on identity; ideas of privacy and intimacy; the way we understand and perceive psychological distress; and the development of the profession of psychology around the world. The article takes a critical perspective on globalization, seeing it as aligned with the spread of neoliberal capitalism, a tendency towards cultural homogenization, the

Globalization, culture and psychology: International ...

psychological consequences of globalization are described, with a focus on identity issues. Specifically, it is argued that most people worldwide now develop a bicultural identity that combines their local identity with an identity linked to the global culture; that identity confusion may be increasing among young people in non-Western cultures as a

The Psychology of Globalization - Jeffrey Arnett

A simple way to understand how globalization has influenced human behaviour is to look at how some cultures values have changed over time. It is important to note that globalization is often referred to as Westernization, as the result is most frequently cultures adapting more Western values. In the first post in this globalization series, we are going to look at how the rise in Western (i.e. individualistic) values in Japan as a result of globalization might be having an effect on their ...

How does globalization influence behaviour? | IB Psychology

ABSTRACT Psychological theories and research often assume nations are culturally homogeneous and stable. But global demographic, political, and economic changes and massive immigration have sparked new scholarly and policy interest in cultural diversity and change within nations.

THEORIES LINKING CULTURE AND PSYCHOLOGY: Universal and ...

Abstract. The influence of globalization on psychological functioning is examined. First, descriptions of how globalization is occurring in various world regions are presented. Then the psychological consequences of globalization are described, with a focus on identity issues. Specifically, it is argued that most people worldwide now develop a bicultural identity that combines their local identity with an identity linked to the global culture; that identity confusion may be increasing among ...

The Psychology of Globalization

Globalization has made exposure to multiple cultures not only possible, but often necessary and unavoidable. This article focuses on how people react and adapt to increasing globalization and multiculturalism. We posit that reactions to multiculturalism and intercultural contact are not universal and are themselves shaped by cultural experiences. That is, culture provides a frame of reference for reconciling and negotiating the inflow of foreign cultures and peoples.
