Relations between the Republic of India and the European Union are currently defined by the 1994 EU-India Cooperation Agreement. The EU is a significant trade partner for India and the two sides have been attempting to negotiate a free trade deal since 2007. Indo-EU bilateral trade (excluding services trade) stood at US\$104.3 billion in the financial year 2018-19.

India, European Union decide to set up high-level dialogue to address 'trade irritants' 15 Jul, 2020, 06:10PM IST Addressing the virtual summit, Prime Minister Narendra Modi described India and the EU as "natural partners", and asserted that the partnership was important for peace and stability in the world and this reality has become "even more evident in today's global scenario".

øThis multi-disciplinary book provides a comprehensive analysis of the EU-India relationship from 1950 to the present day, as a way of assessing whether a meaningful and sustainable relationship is emerging and whether it will play a role in the future

How can India and the EU expand their relationship from its current economic dimension to a broader, security-based dimension? Why is this not happening in spite of expressed willingness and the clear reciprocal benefits that would ensue? Is there a lack of frank dialogue on sensitive areas, or is there a more general lack of mutual understanding? The various Indian and European contributors to this volume - the result of long-standing collaboration between the Indian Council of World Affairs (ICWA) and the European Union Institute for Security Studies (EUISS) - assess incipient progress and explore ways to advance India-EU relations in the bilateral and multilateral dimensions of the Strategic Partnership. Although it was launched in 2004, a consensus emerges that such a partnership cannot be called strategic as yet. Continuing discussion and analysis of pressing issues is thus necessary in order to facilitate a breakthrough. This book contains detailed proposals for widening the scope of cooperation to both traditional and non-traditional security issues, such as counter-terrorism, security sector reform in third countries and energy. It also explores the potential for India and the EU to reach consensus in international governance forums, with particular emphasis on economic governance, as well as prospects for effective inter-regional cooperation on the main global security issues, such as peacekeeping and maritime security -- EU Bookshop.

European Studies Division, Centre for American and West European Studies, School of International Studies, Jawaharlal Nehru University in November 2001.

The unprecedented uncertainties marked by the pandemic and strategic conflicts between the key forces have redirected our attention to the importance of partnerships and engagements in international relations. India-EU dialogues through the annual summits have familiarized each other towards a greater understanding of one another's perspectives and interests. Their strategic engagement has broadened in the last few years to include climate change, energy, connectivity, migration, education, science and technology, and research and innovation. The growing convergence in Brussels and New Delhi's strategic interests open up new windows of opportunities for greater cooperation on diversified issues. Capturing the new momentum in India-EU relations, this book uncovers various issues and topics spanning across politics, education, and culture. Each chapter in this book analyzes the scope of the cooperation, the existing challenges that India and the EU encounter, and provides policy recommendations for the future.

Study with reference to the economic and commercial aspects.

This book explores the images and perceptions of the European Union (EU) in the eyes of one of the EU's three strategic partners in Asia in the context of its own distinct policies and identity. It fills a major gap in existing studies on how Asians perceive the EU. The book examines the perception, representation and visibility of the EU in the Indian media, among the 'elites' and in public opinion. It explores whether the Union's self-proclaimed representation as a global actor, a normative power and a leader in environmental negotiations conforms to how it is actually perceived in Third World countries. The book asks questions such as, How have Indian images of Europe/European Union been changing from the 1940s to the present? What new narratives have emerged or are emerging about the EU in India? What does the rise of China mean for EU-India relations? Is the image of the EU changing in India or do old representations still persist even though the Union is acquiring a new personality in the world politics? How does India perceive Poland?

This book for children (roughly 9 to 12 years old) gives an overview of Europe and explains briefly what the European Union is and how it works.--Publisher's description.

What purpose does the EU serve? Why and how was it set up? How does it work? What has it already achieved for its citizens, and what new challenges does it face today? In a globalised world, can the EU compete successfully with other major economies while maintaining its social standards? How can immigration be managed? What will Europe's role be on the world stage in the years ahead? Where will the EU's boundaries be drawn? And what future is there for the euro? These are

just some of the questions explored by EU expert Pascal Fontaine in this 2017 edition of his popular booklet *Europe in 12 lessons*. Pascal Fontaine is a former assistant to Jean Monnet and former professor at the Institut d'Études Politiques, Paris.

The European Union (EU) is a political and economic partnership that represents a unique form of cooperation among sovereign countries. The EU is the latest stage in a process of integration begun after World War II, initially by six Western European countries, to foster interdependence and make another war in Europe unthinkable. The EU currently consists of 27 member states, including most of the countries of Central and Eastern Europe, and has helped to promote peace, stability, and economic prosperity throughout the European continent. This report serves as a primer on the EU. It also discusses U.S.-EU relations

A look behind the scenes of some of India's most critical foreign policy decisions by the country's former foreign secretary and national security adviser. Every country must make choices about foreign policy and national security. Sometimes those choices turn out to have been correct, other times not. In this insider's account, Shivshankar Menon describes some of the most crucial decisions India has faced during his long career in government—and how key personalities often had to make choices based on incomplete information under the pressure of fast-moving events. Menon either participated directly in or was associated with all the major Indian foreign policy decisions he describes in *Choices*. These include the 2005-08 U.S.-India nuclear agreement; the first-ever boundary-related agreement between India and China; India's decision not to use overt force against Pakistan in response to the 2008 terrorist attacks in Mumbai; the 2009 defeat of the Tamil rebellion in Sri Lanka; and India's disavowal of the first-use of nuclear weapons. Menon examines what these choices reveal about India's strategic culture and decisionmaking, its policies toward the use of force, its long-term goals and priorities, and its future behavior. *Choices* will be of interest to anyone searching for answers to questions about how one of the world's great, rising powers makes its decisions on the world stage, and the difficult choices that sometimes had to be made.
