It Worked For Me In

354) Colin Powell's second memoir, It Worked for Me: In Life and Leadership is a series of short essays that sound like they were influenced by his time on the public speaking circuit. In these essays – Share the Credit, The Pottery Barn Rule, Never Walk Past a Mistake , for example – he tells a series of anecdotes, often punctuated with an aphorism.

Colin Powell, one of America ' s most admired public figures, reveals the principles that have shaped his life and career in this inspiring and engrossing memoir. A beautiful companion to his previous memoir, the #1 New York Times bestseller My American Journey, Powell ' s It Worked for Me: In Life and Leadership is a trove of wisdom for anyone hoping to achieve their goals and turn their dreams into reality. A message of strength and endurance from a man who has dedicated his life to public service, It Worked for Me is a book with the power to show readers everywhere how to achieve a more fulfilling life and career.

" A great American success story . . . an endearing and well-written book. " —The New York Times Book Review Colin Powell is the embodiment of the American dream. He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history—Vietnam, the Pentagon, Panama, Desert Storm—but a history that until now has been known only on the surface. Here, for the first time, Colin Powell himself tells us how it happened, in a memoir distinguished by a heartfelt love of country and family, warm good humor, and a soldier's directness. My American Journey is the powerful story of a life well lived and well told. It is also a view from the mountaintop of the political landscape of America. At a time when Americans feel disenchanting with their leaders, General Powell's passionate views on family, personal responsibility, and, in his own words, "the greatness of America and the opportunities it offers" inspire hope and present a blueprint for the future. An utterly absorbing account, it is history with a vision. Praise for My American Journey " The stirring, only-in-America story of one determined man's journey from the South Bronx to directing the mightiest of military forces . . . Fascinating. " —The Washington Post Book World " Eloquent. " —Los Angeles Times Book Review " Profound and moving . . . Must reading for anyone who wants to reaffirm his faith in the promise of America. " —Jack Kemp, The Wall Street Journal " A book that is much like its subject—articulate, confident, impressive, but unpretentious and witty. . . . Whether you are a political junkie, a military buff, or just interested in a good story, My American Journey is a book well worth reading. " —San Diego Union Tribune " Colin Powell's candid, introspective autobiography is a joy for all with an appetite for well-written political and social commentary. " —The Detroit News

Former President George H.W. Bush, revealed through his letters and writings from 1941 to 2010, is " worth its weight in gold...a valuable update of the life of an honorable American leader " (The Washington Post). " Who knew that beneath George Bush ' s buttoned-up propriety pulsed the warm heart of a prolific and occasionally poetic writer with a wacky sense of humor? " (People) Though reticent in public, George Bush openly shared his private thoughts in correspondence throughout his life. This collection of letters, diary entries, and memos is the closest we ' ll ever get to his autobiography. Organized chronologically, readers will gain insights into Bush ' s career highlights—the oil business, his two terms in Congress, his ambassadorship to the UN, his service as an envoy to China, his tenure with the Central Intelligence Agency, and of course, the vice presidency, the presidency, and the post-presidency. They will also observe a devoted husband, father, and American. Ranging from a love letter to Barbara and a letter to his mother about missing his daughter, Robin, after her death from leukemia to a letter to his children written just before the beginning of Desert Storm, this collection is remarkable for Bush ' s candor, humor, and poignancy. " An unusual glimpse of the private thoughts of a public figure " (Newsweek), this revised edition includes new letters and photographs that highlight the Bush family ' s enduring legacy, including letters that cover George W. Bush ' s presidency, 9/11, Bush senior ' s work with President Clinton to help the victims of natural disasters, and the meaning of friendship and family. All the Best, George Bush " will shed more light on the man ' s personal character and public persona than any memoir or biography could " (Publishers Weekly).

"Nickel and Dimed for the Amazon age," (Salon) the biting funny, eye-opening story of finding work in the automated and time-starved world of hourly low-wage labor After the local newspaper where she worked as a reporter closed, Emily Guendelsberger took a pre-Christmas job at an Amazon fulfillment center outside Louisville, Kentucky. There, the vending machines were stocked with painkillers, and the staff turnover was dizzying. In the new year, she travelled to North Carolina to work at a call center, a place where even bathroom breaks were timed to the second. And finally, Guendelsberger was hired at a San Francisco McDonald's, narrowly escaping revenge-seeking customers who pelted her with condiments. Across three jobs, and in three different parts of the country, Guendelsberger directly took part in the revolution changing the U.S. workplace. Offering an up-close portrait of America's actual "essential workers," On the Clock examines the broken social safety net as well as an economy that has purposely had all the slack drained out and converted to profit. Until robots pack boxes, resolve billing issues, and make fast food, human beings supervised by AI will continue to get the job done. Guendelsberger shows us how workers went from being the most expensive element of production to the cheapest - and how low wage jobs have been remade to serve the ideals of efficiency, at the cost of humanity. On the Clock explores the lengths that half of Americans will go to in order to make a living, offering not only a better understanding of the modern workplace, but also surprising solutions to make work more humane for millions of Americans.

Life is short. You can, if you work hard and are lucky, get more of almost anything, but you can't get more time. Time only goes one way. The average American has a lifespan of less than 30,000 days. So how you choose to live matters. That's the topic of this book. I don't pretend to have all the answers. I'm still learning every day, and many of the good ideas here I've picked up from other people either directly or by reading. But this is what's worked for me. Like life, this book is short. Many books I read could communicate their ideas in fewer pages. So I've tried to be brief in line with the wise person who noted: "If I'd had more time I would have written a shorter letter". I don't think brevity implies lack of content. The concepts here have improved the quality of my life, and I hope they're useful to you as well. Using these concepts, I have created a life I love. My job doesn't feel like work. I love and respect the people with whom I spend time. And I'm also passionate about my life outside work. I've learned how to create a balance that makes me happy between work and other interests, including my family, friends and exercise. Sadly I think that's rare. And yet, while I know I'm lucky, most people can work towards those goals in their own lives. My interest in making the most of my life began when I was just starting college, but when I was in my mid-thirties a boss I admired died of cancer. He was young. He had a great wife; he had three young children; he had a fantastic career -- he had everything in life. He just didn't have enough time. So, while I'd often thought about how to get the most out of life, the death of someone so young and vital increased my sense of urgency to act on it. One of the things I've always wanted to do was to work for myself. As a result, I left an exciting job at Microsoft in 2001 amidst the Internet bust to found the investing firm I now run. It was hard to do, both financially and emotionally. When I left Microsoft, many people - friends, family, and even some of the press - thought I was deluding myself to start a fund focused on Internet-related companies during a market crash. A press quote from the time said: "Call him a little crazy. Call him a little nuts." I'd never seen that type of coverage before. And, in a sense, the press was right; the business wasn't easy to start. Fortunately, from a vantage point of ten years down the road, it's worked out quite well. A key part of my job is reading and thinking about a broad variety of topics. So writing this book was relatively easy. It's even easier to read. But, like many things in life, actually executing each day on these concepts is extremely difficult. With thanks to Thomas Edison, life is 1% inspiration and 99% perspiration. Even so, I hope you have fun perspiring. Peter Atkins Seattle, WA December, 2010

The Powell Principles details the decision-making habits, success strategies, and leadership philosophies of Secretary of State Colin Powell. Filled with insights that are as refreshingly honest as they are grittily real, this concise, no-nonsense book reveals the keys to Powell's unprecedented success, keys that include: Walk the talk Be a dis-organizer Let change lead growth Be prepared to piss people off Check your ego at the door Push the envelope Let situation dictate strategy Challenge the pros Trust those in the trenches Prepare to be lonely Colin Powell rose from the hardscrabble streets of the Bronx to become the man Newsweek calls "...the most respected figure in American public life." Let The Powell Principles introduce you to the principles that drove him to the top and provide you with a blueprint for inspiring anyone--including yourself--to achieve extraordinary levels of professional success.

You ' re a Visionary. That ' s the problem. You ' ve already founded a successful business and have clear ideas for the future of your company. This has worked for you so far, but now business has stalled, and you ' ve become overwhelmed, stuck, and frustrated. You may have a hunch that something or someone is missing – and you ' re right. A great Visionary is only half of the equation for launching a company toward success. A solid partnership is the key to helping your business soar, and you need someone else to play a crucial role in taking your business to its maximum level. Enter the Integrator. This is the Visionary ' s complement who has a talent for moving ideas forward: keeping varying tasks and schedules aligned, creating focus and accountability, and ensuring cohesion of people and processes. In other words, the Integrator takes a vision and executes it. From the author of the bestselling Traction, Rocket Fuel details the integral roles of the Visionary and Integrator and explains how an effective relationship between the two can thrive, and even offers advice to help Visionary-minded and Integrator-minded individuals find one another. Rocket Fuel also offers assessments so you ' re able to determine whether you ' re a Visionary or an Integrator so you can recognize your needs and then find the best partner to suit them. Without an Integrator, a Visionary is far less likely to succeed long-term, and realize the company ' s ultimate goals—likewise, with no Visionary, an Integrator can ' t rise to his or her full potential. When these two people come together to share their natural talents and innate skill sets, they have the power to reach new heights for virtually any company or organization. Rocket Fuel is here. Time to ignite the booster for your next level. This explosive combination is the key to getting everything you want out of your business. It worked for Disney. It worked for McDonald ' s. It worked for Ford. It can work for you.

What essential leadership lessons do we learn by distilling the actions and ideas of great military commanders such as George Washington, Dwight D. Eisenhower, and Colin Powell? That is the fundamental question underlying The Art of Command: Military Leadership from George Washington to Colin Powell. The book illustrates that great leaders become great through conscious effort—a commitment not only to develop vital skills but also to surmount personal shortcomings. Harry S. Laver, Jeffrey J. Matthews, and the other contributing authors identify nine core characteristics of highly effective leadership, such as integrity, determination, vision, and charisma, and nine significant figures in American military history whose careers embody those qualities. The Art of Command examines each figure ' s strengths and weaknesses and how those attributes affected their leadership abilities, offering a unique perspective of military leadership in American history. Laver and Matthews have assembled a list of contributors from military, academic, and professional circles, which allows the book to encompass diverse approaches to the study of leadership.

One of Booklist's Top 10 Business Books of 2002 and a BusinessWeek, New York Times, Wall Street Journal, and USA Today business bestseller "Management professor Oren Harari adopts Colin Powell's rise into the upper ranks of American power as a model for decision makers in the private sector. Harari hails Powell's character as the essence of a host of supple executive virtues, from defining and defending rational objectives to playing the provocateur against outdated modes of boardroom thinking."-- The Washington Post "Powell appears to be a natural born leader with an intuitive sense of strategy for advancement in war and politics. For those of us who are not so lucky to have such diplomacy inherently, Harari's book can teach us how to lead effectively following Powell's example."--USA Today "This is a 'battle-tested' leadership book and although the author has shown how to apply these principles in the corporate venue, you don't have to be a CEO to benefit from the words and wisdom of Colin Powell."--Booklist
