## Modulation Basics - Harmony

Modulation describes the process where a piece of music changes from one key to another key.. When you start writing a piece of music one of the first things you

flat; then A flat; next D flat; then G flat. This is the natural key modulation process. This natural order of flats is a perfect way to modulate from one key to another. It is logical and sounds pleasant to the ear. Modulation becomes a problem, though, if you need to move to another key out of order.
