Nurse Facilitated Hospital Discharge Paperback

Nurse facilitated discharge is the
Zdelegation of responsibility for the
discharge of a patient according to an
agreed plan with specific criteria. The
plan must be agreed by the doctor in
charge of the patients care and the
nurse must be willing to accept the
delegated role [(Lees, 2011, p 18).

The process involved the medical team identifying patients suitable for nurse facilitated discharge and clearly defining criteria to be met along with an appropriate time frame for attainment thus allowing the nurses to facilitate the discharge. Following introduction of nurse facilitated discharge the total number of nurse facilitated discharges was collected and the comparison was made against the total number of discharges for the six months.
