A wise and practical quickstart guide for anyone who wants-or already has-a spiritual teacher. The User's Guide to Spiritual Teachers is a necessary book for anyone who has, or wants to have, a spiritual teacher-regardless of faith or tradition. This book addresses concerns that many of us have on the spiritual path, including how to find a spiritual teacher, how to manage expectations about what they can do, and what to do when you realize you're in a dangerous relationship with one. Spiritual teachers of all traditions will themselves find this book incredibly useful as they reflect on how they benefit their students or may be overstepping their boundaries and actually creating harm. This is your place to look for information, inspiration, sanity, and words of caution.

This pragmatic guide provides concrete, detailed strategies for co-teachers looking to expand their instructional methods and involvement beyond the One Teach, One Support model. While designed for both teachers in a co-teaching pair, the book's tools can easily be applied on your own, making this an ideal resource for co-teachers with limited common planning time.

My Guide Inside(tm) intermediate curriculum is a series of story-based lessons carefully crafted to teach learners about their natural inner wisdom, or their "guide inside." Based on Three Principles that are foundational to all human experience-Mind, Consciousness, and Thought-as discovered by Sydney Banks, this remarkable resource offers a hopeful, simple way for children, youth, and adults to gain new understanding about how they operate from the inside out. Designed to maximize personal well-being and improve school climate, behavior and learner performance, chapters such as "Discovering My Guide Inside," "Riding the Wave," and "Wheels of Learning Keep on Turning" provide vocabulary building, reflective journaling, and a variety of engaging writing and artistic activities to help draw out children's awareness of their own inner wisdom. In crafting this guide intended for Grades 4-7 but adaptable for all ages, authors Christa Campsall and Jane Tucker pull from their years as educators to design a curriculum, inclusive of all learners, meeting official learning objectives and student competency standards. Children naturally experience their wisdom and show resilience when given a hint about how life works. This program promotes that discovery process and encourages happiness and success in their young lives. www.ed-talks.com for more information.Teen Edition and Primary Edition are forthcoming!

While the world of education moves toward the end of the crisis brought forth in 2020, we should recognize all the opportunities that remote education can bring us. To fully engage those opportunities, we need to learn more about the tools we use. As you were teaching your online classes, you were probably considering things like, How can I choose a good microphone? How can I stop students from interrupting each other? How can I best exploit breakout rooms? How can I use Zoom for pre-recording presentations? You'll also find out more about important areas like Zoom's screen sharing system, important security measures, coping with Zoom fatigue, and using Zoom for academic conferences. Most of us learned enough about Zoom to get us through our classes, but Zoom is capable of much more. This second book of the Teaching With Zoom series discusses best practices, supplementary hardware and software choices, and tips to make your Zoom classroom safer, more productive, and more enjoyable.
